Clamp Light

store.ofs.com

imagine a place®

800.521.5381

Features:

- Clamps to rim of worksurface
- 18 Fractional watt LED lights at 3500K color temperature
- Feather touch; ADA-compliant power and light level control switch
- Touch and hold dimming
- Auto shut off after nine hours on continuous life
- 9' Power cord

Installation:

1. To install clamp mount – loosen thumbscrew, slide clamp on work surface from edge, and tighten thumbscrew until securely fixed in place. Clamp mount light requires a mounting surface thickness of $\frac{5}{8}$ " (16mm) minimum and $1\frac{1}{2}$ " (38mm) maximum.
2. With just the slightest touch of a fingertip, the power button, located on top of the unit, controls the lamp on and off. Adjust brightness with a continuous fingertip touch on the power button. Lamp automatically shuts off after 9 continuous hours. When lamp is powered on, it automatically returns to the last-used level of brightness.
